

KaVo Imaging Solutions – KaVo Scan eXam™ One

# All you need is One.

The new KaVo Scan eXam™ One – the compact solution for fast and reliable digital intraoral imaging.

KaVo. Dental Excellence.

# Dental Excellence for every dental office.

## The perfect One for all intraoral purposes.

- Excellent image quality
- Covers a wide range of your diagnostic needs
- Supports Occlusal 4C image format
- Delivers consistently high quality results

Scanning resolution 17lp/mm.  
Image bit depth 16 bit.

Optional: Occlusal 4C image

# Advanced intraoral diagnostics.

## One – solution for all needs.

Advanced digital image processing provides consistent images time after time. Excellent image quality can already be achieved using factory pre-set settings that can still be easily adjusted according to dentist's diagnostic preferences.

# Speed up your digitalization.

## Superb results in an instant.

Clear and sharp KaVo Scan eXam™ One intra-oral images reproduce grey-levels accurately to show the required diagnostic information even in the smallest details. Just insert the imaging plate.

*As flexible as film for high patient comfort*

*Easy front-side operation – minimum space requirements*

## All in One.

Multiple imaging plate sizes available for KaVo Scan eXam™ One can be used in all bitewing, periapical and occlusal projection images and are particularly suitable for pediatric patients. As easy and flexible to use as film.

# Speed and maximum comfort.

## Fast and easy workflow.

The KaVo Scan eXam One's re-useable imaging plates provide an easy-to-learn and comfortable workflow. The entire process from reading the image to display on screen takes only seconds.

The system can be operated in a normal daylight environment, no chemicals needed.

# One solution for individuals and multiple users.

# Your workflow – safe and productive.

### Chairside or shared use.

KaVo Scan eXam™ One is a perfect choice as your personal X-ray imaging solution at the chairside. It can also be easily shared with multiple users in a network.

### Attractive design.

The KaVo Scan eXam™ One requires little space and looks great! Select from 4 trendy colors, the one that fits best into your practice.

### Safe workflow.

KaVo Scan eXam™ One provides additional workflow security by displaying the patient name and user ID on its display. The iDot™ tracking system on the imaging plates helps in tracing the imaging plate used for an individual X-ray image.

### Hygiene workflow. As easy to position as film.
